Worked Examples

Example 1 — Finding a hidden word:

Find the small word hidden inside the word BANDAGE (the letters are joined together, in the same order). What is the hidden word?

Answer: The letters A-N-D appear together inside BANDAGE: b-AND-age. Answer: **AND**.

Example 2 — Multiple-choice, watch for letters in the wrong order:

Which word is hidden inside MARMALADE, with its letters joined together in the same order? A) LAD B) MALE C) LAME D) ALARM

Answer: MARMALADE ends in '…marma-LAD-e', so **A) LAD** is correct. MALE, LAME and ALARM all use letters from MARMALADE, but not in that exact joined-up order, so they don't count.

Example 3 — Select-all, checking several words for one hidden string:

Select ALL the words below that contain the letters E-A-R joined together, in that order. A) LEARN B) BREAD C) EARTH D) DREAM

Answer: LEARN (l-EAR-n) and EARTH (EAR-th) both contain EAR joined together, so **A and C** are correct. BREAD and DREAM contain the letters E, A and R, but not joined in that exact order, so they do not count.
