30. Insert a Letter (Set B)

Year 4 · **Supplementary Worksheet** — extra practice & worked breakdowns

Worked Examples

Example 1 — Finding the letter:

Find the one letter that completes BOTH words below: B_D and R_D

Answer: Inserting E gives BED and RED, two real words. Answer: **E** (BED, RED).

Example 2 — Multiple-choice:

Which letter completes BOTH words below: FL_T and M_T? A) A B) O C) I D) U

Answer: Inserting A gives FLAT and MAT, both real words. Answer: **A) A**.

Example 3 — Select-all, more than one letter can work:

Select ALL the letters that complete BOTH words: B_ND and L_T. A) A B) E C) I D) O E) U

Answer: E gives BEND and LET, I gives BIND and LIT, and O gives BOND and LOT — all three are real word pairs, so **B, C and D** are correct. A gives BAND, but LAT is not a real word, so A is not correct.

Example 4 — A longer pair of words:

Identify the letter that fits the gap in BOTH words below: SH_RT and P_T

Answer: Inserting O gives SHORT and POT. Answer: **O**.

Example 5 — Watch out: the letter must work for BOTH words:

A student is trying to find the letter for ST_VE and V_N. They try O, giving STOVE — but does V_N become a real word with O? Explain why O is not correct, and give the correct letter instead.

Answer: STOVE is a real word, but 'VON' is not an everyday English word, so O does not work for both gaps. The correct letter is **A**, giving STAVE and VAN.
