Worked Examples

Example 1: Complete the sentence: 'The detective examined the ___ clue carefully before writing in his notebook.' A) loud B) mysterious C) delicious D) friendly E) noisy

Answer: B) mysterious — it fits the context of a detective examining a clue; the other options don't make sense describing a clue.

Example 2: Complete the sentence: 'By the time we arrived, the film ___ already started.' A) have B) has C) had D) having E) will have

Answer: C) had — the past perfect tense ('had started') correctly shows one past action (the film starting) happened before another past action (our arriving).

Example 3: Complete the sentence: 'Neither the teacher nor the students ___ ready for the fire drill.' A) was B) is C) were D) be E) being

Answer: C) were — with 'neither...nor', the verb agrees with the noun closest to it ('students', plural), so 'were' is correct.
