Reading for Information

Year 4 · **Lesson Worksheet**

Worked Examples

Example 1: Four friends compare ages: Sam is 11. Priya is 9. Tom is older than Sam. Who is the oldest of the three?

Answer: Tom — Tom is older than Sam (11), and Sam is older than Priya (9), so Tom is the oldest.

Example 2: A library opens at 9am and closes at 5pm on weekdays, and from 10am to 1pm on Saturdays. It is closed on Sundays. If it is 11:30am on a Saturday, is the library open or closed?

Answer: Open — Saturday hours are 10am to 1pm, and 11:30am falls within that time.

Example 3: Four shops sell fruit: Shop A sells only apples and bananas. Shop B sells apples, bananas and oranges. Shop C sells only oranges. Which shop sells both apples and oranges?

Answer: Shop B — it is the only shop whose list includes both apples and oranges.

Purple — Accessible (15 questions)

1. At a fun run, four friends finish in this order: Ola finishes before Priya. Priya finishes before Quinn. Quinn finishes before Ravi. Who finishes last?
2. A pet shop has four animals: a parrot, a rabbit, a hamster and a tortoise. The parrot is older than the rabbit. The hamster is older than the parrot. The tortoise is older than the hamster. Which animal is the oldest?
3. Four buses leave the station: Bus 1 leaves at 9:00. Bus 2 leaves 15 minutes after Bus 1. Bus 3 leaves 10 minutes after Bus 2. Bus 4 leaves 5 minutes after Bus 3. What time does Bus 4 leave? A) 9:20 B) 9:25 C) 9:30 D) 9:35 E) 9:40
4. Three sisters are Ella, Freya and Grace. Ella is taller than Freya. Grace is taller than Ella. Who is the shortest of the three?
5. A café is open from 8:00am to 6:00pm every day except Sunday, when it opens at 10:00am and closes at 2:00pm. If it is 1:30pm on a Sunday, is the café open or closed?
6. A cinema has four showings of a film: 2:00pm, 4:30pm, 7:00pm and 9:15pm. Each showing lasts 2 hours. What time does the 4:30pm showing finish? A) 6:00pm B) 6:15pm C) 6:30pm D) 6:45pm E) 7:00pm
7. Four children have these ages: Tom is 9. Ursula is 11. Victor is 3 years older than Tom. Who is the oldest: Tom, Ursula or Victor?
8. A fruit stall sells apples, pears and plums. Apples cost 30p each. Pears cost 10p more than apples. Plums cost 15p less than pears. How much does one plum cost?
9. Four shops are open on different days: Shop A is open Monday, Wednesday and Friday. Shop B is open every day except Sunday. Shop C is open only on weekends (Saturday and Sunday). Shop D is open Tuesday, Thursday and Saturday. Select ALL the shops that are open on Saturday. A) Shop A B) Shop B C) Shop C D) Shop D E) None of them
10. In a class, Noah sits in front of Olivia. Olivia sits in front of Priya. Priya sits in front of Quentin. Who sits directly behind Olivia?
