Word Rules

Year 4 · **Homework Worksheet**

Worked Example

Example: In this code, the first letter of the word is written twice at the start, and then the rest of the word follows as normal, so CAT becomes CCAT. Using the same rule, the word LLAMP was made from an original word. What was the original word?

Answer: LAMP.

Purple — Accessible (15 questions)

1. In this code, each letter is replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), so CAT becomes DBU. Using the same rule, what does DUCK become?

2. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, the word HNCI was made from an original word. What was the original word?

3. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, what does BUTTON become?

4. In this code, each letter is replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), so CAT becomes DBU. Using the same rule, the word TXBO was made from an original word. What was the original word?

5. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, what does CORN become?

6. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, the word NIKPAN was made from an original word. What was the original word?

7. In this code, each letter is replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), so CAT becomes DBU. Using the same rule, what does GLOW become?

8. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, the word FKUJ was made from an original word. What was the original word?

9. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, what does MARBLE become?

10. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, select ALL of these words that become a DIFFERENT real English word once the code is applied. A) PAN B) WON C) DOG D) LAMP E) FISH

11. In this code, each letter is replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), so CAT becomes DBU. Using the same rule, what does CRAB become? A) ESBC B) DRBC C) DSBC D) DSDC E) DSBA

12. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, what does WOLF become? A) ZQNH B) YPNH C) YQPH D) YQNH E) YQNF

13. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, the word REMMAH was made from an original word. What was the original word?

14. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, what does CHICKEN become? A) OEKCIHC B) NEKCIHC C) NDKCIHC D) NEMCIHC E) NEKAIHC

15. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, the word TEGRAT was made from an original word. What was the original word? A) UARGET B) TZRGET C) TATGET D) TAREET E) TARGET

Green — Standard (15 questions)

1. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, what does FROST become?

2. In this code, the first and last letters of the word swap places, and the letters in between stay the same, so CARS becomes SARC. Using the same rule, the word EHINS was made from an original word. What was the original word?

3. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, what does SPEAK become?

4. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, the word FKDUP was made from an original word. What was the original word?

5. In this code, the first and last letters of the word swap places, and the letters in between stay the same, so CARS becomes SARC. Using the same rule, what does PRIZE become?

6. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, the word AINBOWR was made from an original word. What was the original word?

7. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, what does DREAM become?

8. In this code, the first and last letters of the word swap places, and the letters in between stay the same, so CARS becomes SARC. Using the same rule, the word ELAZB was made from an original word. What was the original word?

9. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, what does CHAPTER become?

10. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, select ALL of these words that become a DIFFERENT real English word once the code is applied. A) SNAP B) SMILE C) HEART D) GLASS E) TRAIN

11. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, what does GRASP become? A) KUDVS B) JTDVS C) JUDVS D) JUFVS E) JUDTS

12. In this code, the first and last letters of the word swap places, and the letters in between stay the same, so CARS becomes SARC. Using the same rule, what does TRUCK become? A) LRUCT B) KQUCT C) KRWCT D) KRUCT E) KRUAT

13. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, the word EACHERT was made from an original word. What was the original word?

14. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, what does FARMER become? A) BRMERF B) ARMERF C) AQMERF D) AROERF E) ARMCRF

15. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, the word ASTERM was made from an original word. What was the original word? A) NASTER B) MZSTER C) MAUTER D) MASRER E) MASTER

Standard / Advanced (15 questions)

1. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, what is the FIRST letter of the coded version of DOG?

2. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, what is the LAST letter of the coded version of FISH?

3. In this code, each letter is replaced by the letter 1 place earlier in the alphabet (wrapping back round to Z after A), so CAT becomes BZS. Using the same rule, how many vowels (A, E, I, O, U) are in the coded version of KITE?

4. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, which comes first in the alphabet: the coded version of BIG, or the coded version of CAT? A) BIG's coded version B) CAT's coded version C) They are the same D) Cannot be determined E) Neither is a valid code

5. In this code, the first letter of the word is written twice at the start, and then the rest of the word follows as normal, so CAT becomes CCAT. Using the same rule, how many letters does the coded version of FOX have?

6. In this code, each letter is replaced by the letter 4 places later in the alphabet (wrapping back round to A after Z), so CAT becomes GEX. Using the same rule, what does BIRD become?

7. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the first letter of that shifted word is written twice at the start, so CAT becomes DDBU. Using the same rule, what does GARDEN become?

8. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, what does TOP become? A) UPQ B) QPU C) UQP D) PQU E) QPT

9. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, the word LSPG was made from an original word. What was the original word?

10. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the first letter of that shifted word is written twice at the start, so CAT becomes DDBU. Using the same rule, the word UUVMJQ was made from an original word. What was the original word?

11. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, select ALL of these coded words that were made from a real English word. A) QVD B) QVC C) NSB D) NSC E) ZPU

12. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the first letter of that shifted word is written twice at the start, so CAT becomes DDBU. Using the same rule, what does CHAIR become?

13. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, the word OVC was made from an original word. What was the original word? A) BUN B) BUM C) BIN D) FUN E) RUN

14. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, what does RUN become?

15. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the first letter of that shifted word is written twice at the start, so CAT becomes DDBU. Using the same rule, what does LOG become? A) MMPH B) MPMH C) MMHP D) PMMH E) HMMP
