Word Rules

Year 4 · **Lesson Worksheet**

Worked Examples

Example 1: In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, what does DOG become?

Answer: FQI.

Example 2: In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, the word NEDRAG was made from an original word. What was the original word?

Answer: GARDEN.

Example 3: In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, what does STORM become?

Answer: TORMS.

Purple — Accessible (15 questions)

1. In this code, each letter is replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), so CAT becomes DBU. Using the same rule, what does DOG become?
2. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, the word RNWO was made from an original word. What was the original word?
3. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, what does GARDEN become?
4. In this code, each letter is replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), so CAT becomes DBU. Using the same rule, the word CJSE was made from an original word. What was the original word?
5. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, what does STAR become?
6. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, the word RETNIW was made from an original word. What was the original word?
7. In this code, each letter is replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), so CAT becomes DBU. Using the same rule, what does FISH become?
8. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, the word HTQI was made from an original word. What was the original word?
9. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, what does MARKET become?
10. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, select ALL of these words that become a DIFFERENT real English word once the code is applied. A) STAR B) DOG C) CAT D) LAMP E) PAN

11. In this code, each letter is replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), so CAT becomes DBU. Using the same rule, what does LION become? A) NJPO B) MIPO C) MJPO D) MJRO E) MJPM

12. In this code, each letter is replaced by the letter 2 places later in the alphabet (wrapping back round to A after Z), so CAT becomes ECV. Using the same rule, what does DESK become? A) GGUM B) FFUM C) FGWM D) FGUM E) FGUK

13. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, the word REVLIS was made from an original word. What was the original word?

14. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, what does MONKEY become? A) ZEKNOM B) YEKNOM C) YDKNOM D) YEMNOM E) YEKLOM

15. In this code, the word is written backwards (back to front), so CAT becomes TAC. Using the same rule, the word CINCIP was made from an original word. What was the original word? A) QICNIC B) PHCNIC C) PIENIC D) PICLIC E) PICNIC

Green — Standard (15 questions)

1. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, what does BIRD become?

2. In this code, the first and last letters of the word swap places, and the letters in between stay the same, so CARS becomes SARC. Using the same rule, the word RIGET was made from an original word. What was the original word?

3. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, what does STORM become?

4. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, the word VWRQH was made from an original word. What was the original word?

5. In this code, the first and last letters of the word swap places, and the letters in between stay the same, so CARS becomes SARC. Using the same rule, what does LEMON become?

6. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, the word RAPEG was made from an original word. What was the original word?

7. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, what does CHAIR become?

8. In this code, the first and last letters of the word swap places, and the letters in between stay the same, so CARS becomes SARC. Using the same rule, the word EPPLA was made from an original word. What was the original word?

9. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, what does CLOUD become?

10. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, select ALL of these words that become a DIFFERENT real English word once the code is applied. A) STOP B) NAME C) SPIN D) CART E) TEAM

11. In this code, each letter is replaced by the letter 3 places later in the alphabet (wrapping back round to A after Z), so CAT becomes FDW. Using the same rule, what does TRAIN become? A) XUDLQ B) WTDLQ C) WUDLQ D) WUFLQ E) WUDJQ

12. In this code, the first and last letters of the word swap places, and the letters in between stay the same, so CARS becomes SARC. Using the same rule, what does HOUSE become? A) FOUSH B) ENUSH C) EOWSH D) EOUSH E) EOUQH

13. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, the word PARKS was made from an original word. What was the original word?

14. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, what does TRUCK become? A) SUCKT B) RUCKT C) RTCKT D) RUEKT E) RUCIT

15. In this code, the first letter of the word moves to the end, and every other letter shifts one place to the left, so CARS becomes ARSC. Using the same rule, the word LAMEF was made from an original word. What was the original word? A) GLAME B) FKAME C) FLCME D) FLAKE E) FLAME

Red — Challenge (15 questions)

1. In this code, each letter is replaced by the letter 4 places later in the alphabet (wrapping back round to A after Z), so CAT becomes GEX. Using the same rule, what does FISH become?

2. In this code, the first letter of the word is written twice at the start, and then the rest of the word follows as normal, so CAT becomes CCAT. Using the same rule, the word TTABLE was made from an original word. What was the original word?

3. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, what does PIG become?

4. In this code, each letter is replaced by the letter 4 places later in the alphabet (wrapping back round to A after Z), so CAT becomes GEX. Using the same rule, what does LAMP become? A) OEQT B) PEQT C) PFQT D) PERT E) PEQS

5. In this code, each letter is replaced by the letter 4 places later in the alphabet (wrapping back round to A after Z), so CAT becomes GEX. Using the same rule, the word KSPH was made from an original word. What was the original word?

6. In this code, the first letter of the word is written twice at the start, and then the rest of the word follows as normal, so CAT becomes CCAT. Using the same rule, what does TRAIN become?

7. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, the word TVC was made from an original word. What was the original word?

8. In this code, the first letter of the word is written twice at the start, and then the rest of the word follows as normal, so CAT becomes CCAT. Using the same rule, the word PPENCIL was made from an original word. What was the original word? A) PENCIL B) ENCIL C) PENCLI D) PPENCIL E) PENCIIL

9. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, what does ICE become?

10. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, select ALL of these coded words that were made from a real English word. A) UBC B) UDC C) HFM D) HGM E) OFQ

11. In this code, each letter is replaced by the letter 4 places later in the alphabet (wrapping back round to A after Z), so CAT becomes GEX. Using the same rule, the word XVII was made from an original word. What was the original word?

12. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, what does SUN become? A) OVT B) OTV C) TVO D) VOT E) OWT

13. In this code, the first letter of the word is written twice at the start, and then the rest of the word follows as normal, so CAT becomes CCAT. Using the same rule, what does ROBOT become?

14. In this code, each letter is replaced by the letter 4 places later in the alphabet (wrapping back round to A after Z), so CAT becomes GEX. Using the same rule, what does DOOR become?

15. In this code, each letter is first replaced by the letter 1 place later in the alphabet (wrapping back round to A after Z), and then the whole shifted word is written backwards, so CAT becomes UBD. Using the same rule, the word VMZIV was made from an original word. What was the original word? A) RIVER B) RIBER C) RIVET D) ROVER E) RIVED
