Letter Sequences & Alphabet Code

Year 4 Pt 2 — Homework ⏱ 45 min

Worked example — read this through before you start

Worked example: In a code, every letter of a word moves 2 places forward in the alphabet. What is the code for PARK?

Method & answer: Shift every letter forward 2: P→R, A→C, R→T, K→M. Answer: RCTM.

Easy / Standard — *work through together, answer 5 in the lesson* ⏱ *15 min (1 min per question)*

1. In a code, every letter of a word moves 1 place forward in the alphabet. What is the code for GATE?

2. What comes next in the sequence: C, D, E, F, ?

3. What comes next in the sequence: J, I, H, G, ?

4. What comes next in the sequence: D, F, H, J, ?

5. What comes next in the sequence: P, N, L, J, ?

6. What comes next in the sequence: E, H, K, N, ?

7. What comes next in the sequence: V, S, P, M, ?

8. Find the missing letter: G, H, ?, J, K

9. Find the missing letter: L, J, ?, F, D

10. Find the missing letter: I, L, O, ?, U

11. Which letter is 2 letters after E?

12. Which letter is 3 letters after H?

13. Which letter is 4 letters after K?

14. Which letter is 2 letters before H?

15. Which letter is 3 letters before L?

Standard — *work through together, answer 5 in the lesson* ⏱ *15 min (1 min per question)*

1. What comes next in the sequence: E, F, I, J, M, ?

2. What comes next in the sequence: D, H, J, N, P, ?

3. What comes next in the sequence: G, I, M, O, S, ?

4. Find the missing letter: F, I, J, ?, N, Q

5. Find the missing letter: D, F, ?, L, P, R

6. What comes next in the sequence: C, D, F, I, M, ?

7. What comes next in the sequence: E, G, J, N, S, ?

8. Find the missing letter: D, E, G, ?, N, S

9. Which letter is 5 letters after F?

10. Which letter is 6 letters after I?

11. Which letter is 5 letters before J?

12. Which letter is 6 letters before N?

13. In a code, every letter of a word moves 2 places forward in the alphabet. What is the code for MOUSE?

14. Every letter in this code has moved 1 place forward from the original word. Decode it: NPVTF

15. What comes next in the sequence: D, G, H, K, L, ?

Standard / Advanced — *work through together, answer 5 in the lesson* ⏱ *15 min (1 min per question)*

1. Every letter in this code has moved 2 places forward from the original word. Decode it: JCTXGUV

2. In a code, every letter of a word moves 4 places forward in the alphabet. What is the code for MOUSE?

3. What comes next in the sequence: D, I, K, P, R, ?

4. What comes next in the sequence: E, G, L, N, S, ?

5. What comes next in the sequence: F, J, M, Q, T, ?

6. A letter pattern does not move by the same amount every time — the steps alternate between +4 and +1. The pattern begins: D, H, I, M, N. What is the next letter in the pattern?

7. A letter pattern does not move by the same amount every time — the steps alternate between +1 and +4. The pattern begins: E, F, J, K, O. What is the next letter in the pattern?

8. A letter pattern does not move by the same amount every time — the gap grows by 2 each time (+1, +3, +5, +7). The pattern begins: A, B, E, J, Q. What is the next letter in the pattern?

9. A letter pattern does not move by the same amount every time — the steps alternate between +5 and +3. The pattern begins: C, H, K, P, S. What is the next letter in the pattern?

10. A tutor invents a code where every letter of a word is moved 3 places forward in the alphabet to make the coded word. Using this code, what coded word would be made from the word CASTLE?

11. A tutor invents a code where every letter of a word is moved 2 places forward in the alphabet to make the coded word. Using this code, what coded word would be made from the word JOURNEY?

12. A tutor invents a code where every letter of a word is moved 2 places forward in the alphabet to make the coded word. Using this code, what coded word would be made from the word WHISPER?

13. A message has been coded by moving every letter 3 places forward in the alphabet. The coded word a friend sends is "PDUNHW". What was the original word before it was coded?

14. A message has been coded by moving every letter 2 places forward in the alphabet. The coded word a friend sends is "NCPVGTP". What was the original word before it was coded?

15. A message has been coded by moving every letter 3 places forward in the alphabet. The coded word a friend sends is "EODQNHW". What was the original word before it was coded?
