07. Statistics & Averages

Year 4 · Mark Scheme — Supplementary Worksheet

Foundation — Answers

1. 6

2. 12

3. 5

4. 10

5. 7

6. 8

7. 14

8. 35

9. A — 7

10. 24

11. 12

12. A, B and D (C is false — the mode is 2 pets, not 1)

13. A — 15

14. A — 5

15. 16

Standard — Answers

16. 4.5 (sorted: 1, 3, 6, 8 — average the middle two: (3+6) ÷ 2)

17. 16

18. 26

19. A — 7

20. 31

21. 14

22. 5

23. 30

24. A and B (C is false since Blue, not Green, is the mode; D is false since fewer pupils chose Red than Blue)

25. 9

26. A — 27

27. 5.5 (sorted: 2, 3, 5, 6, 8, 10 — average the middle two: (5+6) ÷ 2)

28. 9

29. A — 14

30. 18

31. 17

32. 21

33. 7

34. 20

35. 16

Hard — Answers

36. 11 (the six numbers must sum to 9 × 6 = 54; the five given numbers sum to 43, so 54 − 43 = 11)

37. 21 (the four numbers must sum to 15 × 4 = 60; the three given numbers sum to 39, so 60 − 39 = 21)

38. 8 (half of 32 = 16 own a dog, a quarter = 8 own a cat; 32 − 16 − 8 = 8 own neither)

39. A, B and C (D is false — all five scores are different, so there is no mode)

40. 11 (the seven numbers sum to 12 × 7 = 84; removing 18 leaves 84 − 18 = 66; 66 ÷ 6 = 11)
