16. Perimeter & Area

Year 4 · Mark Scheme — Supplementary Worksheet

Foundation — Answers

1. 20cm

2. 20cm

3. 21cm²

4. C — both A and B (both have a perimeter of 24cm)

5. 22cm

6. 4cm

7. D — 25cm²

8. 4cm

9. A, B, C and E (perimeters of 10cm, 16cm, 18cm and 12cm are all less than 20cm; D is 24cm)

10. 20cm

11. 6cm²

12. B — 5cm×5cm (25cm² is larger than 24cm²)

13. 28cm

14. A square, with an area of 16cm²

15. 5cm

Standard — Answers

16. 26cm

17. C — both A and B (both have a perimeter of 20cm)

18. 42cm²

19. 24cm (side length 6cm, so 4 × 6)

20. 6cm (perimeter ÷ 2 = 15cm, then 15 − 9 = 6)

21. A — 22cm²

22. 60m

23. A, C and E (areas of 30cm², 27cm² and 28cm² are all more than 25cm²; B and D are 16cm²)

24. 36cm²

25. C — both A and B (both have an area of 24cm²)

26. 24cm (length = 8cm, so 2 × (8+4))

27. 49cm² (side length 7cm, so 7 × 7)

28. 21cm² (15cm² + 6cm²)

29. 74m

30. 5cm

31. 32cm

32. 7cm

33. 10cm

34. A, C and E (perimeters of 22cm, 22cm and 22cm are all more than 20cm; B is 16cm and D is exactly 20cm)

35. Length 9cm, perimeter 30cm

Hard — Answers

36. 78m² (12 × 7 = 84m², then 84 − 6 = 78m²)

37. A, B and C (all three equal 36cm²; D is 40cm²)

38. 36cm (the tiles form a 12cm × 6cm rectangle, so perimeter = 2 × (12+6))

39. Width 8cm, length 11cm (if width = w, then (w+3) + w = 19, so w = 8 and length = 11)

40. 45m² (9 × 6 = 54m², then 54 − 9 = 45m², since the rug is 3 × 3 = 9m²)
