14. Reading for Information

Year 4 · **Supplementary Worksheet** — extra practice & worked breakdowns

Worked Examples

Example 1 — Ordering from clues:

Four friends finish a race in this order: Jack finishes before Kim. Kim finishes before Lee. Lee finishes before Mo. Who finishes last?

Answer: Jack → Kim → Lee → Mo, so the last person to finish is **Mo**.

Example 2 — Opening hours:

A shop opens at 9am and closes at 5pm on weekdays, and from 10am to 1pm on Saturdays. It is closed on Sundays. If it is 11:30am on a Saturday, is the shop open or closed?

Answer: Saturday hours are 10am to 1pm, and 11:30am falls within that time, so the shop is **Open**.

Example 3 — Step-by-step money chain:

A fruit stall sells apples, pears and plums. Apples cost 25p each. Pears cost 10p more than apples. Plums cost 5p less than pears. How much does one plum cost?

Answer: Apples = 25p, so pears = 25p + 10p = 35p, so plums = 35p − 5p = **30p**.

Example 4 — Multiple-choice, time arithmetic:

A film starts at 2:15pm and runs for 1 hour 40 minutes. What time does it finish? A) 3:45pm B) 3:55pm C) 4:00pm D) 4:05pm E) 4:15pm

Answer: 2:15pm + 1 hour = 3:15pm, then + 40 minutes = 3:55pm. Answer: **B) 3:55pm**.

Example 5 — Select-all, must be true:

Four hikers: Priya walks faster than Quinn. Quinn walks faster than Ravi. Select ALL statements that MUST be true. A) Priya walks faster than Ravi. B) Ravi walks faster than Quinn. C) Quinn walks faster than Priya.

Answer: Since Priya > Quinn and Quinn > Ravi, it must follow that Priya > Ravi (A is true). B and C both contradict the given information, so they are false. Answer: **A only**.

Foundation

15 questions

1. At a sports day, four friends finish in this order: Mia finishes before Noah. Noah finishes before Omar. Omar finishes before Priya. Who finishes last?

2. A pet shop has four animals: a cat, a guinea pig, a gerbil and a turtle. The cat is older than the guinea pig. The gerbil is older than the cat. The turtle is older than the gerbil. Which animal is the oldest?

3. Four buses leave the station: Bus 1 leaves at 8:00. Bus 2 leaves 20 minutes after Bus 1. Bus 3 leaves 15 minutes after Bus 2. Bus 4 leaves 10 minutes after Bus 3. What time does Bus 4 leave?

4. Three brothers are Leo, Max and Noah. Leo is taller than Max. Noah is taller than Leo. Who is the shortest of the three?

5. A shop is open from 9:00am to 5:00pm every day except Wednesday, when it opens at 11:00am and closes at 1:00pm. If it is 12:30pm on a Wednesday, is the shop open or closed?

6. A cinema has four showings of a film: 1:00pm, 3:30pm, 6:00pm and 8:15pm. Each showing lasts 1 hour 30 minutes. What time does the 3:30pm showing finish? A) 4:30pm B) 5:00pm C) 5:30pm D) 5:45pm E) 6:00pm

7. Four children have these ages: Ella is 8. Freya is 10. Grace is 3 years older than Ella. Who is the oldest: Ella, Freya or Grace?

8. A bakery sells buns, cookies and muffins. Buns cost 40p each. Cookies cost 15p more than buns. Muffins cost 10p less than cookies. How much does one muffin cost?

9. Four shops are open on different days: Shop W is open Monday, Wednesday and Friday. Shop X is open every day except Sunday. Shop Y is open only on weekends (Saturday and Sunday). Shop Z is open Tuesday, Thursday and Sunday. Select ALL the shops that are open on Sunday. A) Shop W B) Shop X C) Shop Y D) Shop Z E) None of them

10. In a class, Leo sits in front of Mia. Mia sits in front of Noah. Noah sits in front of Omar. Who sits directly behind Mia?

11. Four runners finish a race: Ben finishes 2nd. Cara finishes before Ben. Dev finishes after Ben but before Ella. What position does Ella finish in? A) 1st B) 2nd C) 3rd D) 4th E) Cannot tell

12. A train timetable shows: the 9:15 train arrives at 10:05. The 10:40 train takes the same amount of time to arrive. What time does the 10:40 train arrive?

13. Three friends have savings: Dan has £15. Ella has £6 more than Dan. Faye has £4 less than Ella. How much does Faye have?

14. A library's opening hours are 8am–10am, 1pm–3pm and 6pm–9pm each day. At what time would a visitor find the library CLOSED? A) 8:30am B) 1:30pm C) 4:00pm D) 6:30pm E) 8:45am

15. Four friends are in a queue: Cara is directly behind Ben. Dev is directly behind Cara. Ella is directly behind Dev. If Ben is 1st in the queue, what position is Ella in?

Standard

20 questions

1. Five friends compare heights: Bea is taller than Cal. Cal is taller than Dee. Eva is taller than Bea. Fay is shorter than Dee. List the five friends in order from tallest to shortest.

2. At a school fair, four stalls take money: the lucky dip takes £30. The face-paint stall takes £14 more than the lucky dip. The raffle takes half as much as the face-paint stall. The tombola takes £5 less than the raffle. How much does the tombola take?

3. A museum opens at 9:00am and closes at 5:00pm. A school group arrives 2 hours after opening and stays for 1 hour 45 minutes. What time do they leave? A) 11:45am B) 12:15pm C) 12:30pm D) 12:45pm E) 1:00pm

4. Four athletes' long jump distances: Nina jumped 2.8m. Omar jumped 0.5m further than Nina. Priti jumped 0.2m less than Omar. Quin jumped 0.6m further than Priti. Who jumped the furthest?

5. In a bookshop, hardbacks cost £3 more than paperbacks. Paperbacks cost £2 less than box sets. Box sets cost £12. How much does a hardback cost?

6. Four friends' test scores: Leo scored 72. Mina scored 6 more than Leo. Nia scored 4 less than Mina. Omar scored the average (mean) of Mina and Nia's scores. What did Omar score? A) 74 B) 75 C) 76 D) 77 E) 78

7. Four hikers' walking speeds: Ewan walks faster than Finn. Finn walks faster than Gia. Hana walks faster than Ewan. Select ALL statements below that MUST be true. A) Hana walks faster than Gia B) Finn walks faster than Hana C) Gia walks the slowest D) Ewan walks faster than Gia E) Hana walks the fastest

8. A BLUE delivery van and a YELLOW delivery van leave the depot at the same time. The BLUE van takes 20 minutes less than the YELLOW van to reach the warehouse. The YELLOW van takes 1 hour and 5 minutes. How long does the BLUE van take?

9. Four friends share sweets: Ravi has 5 more sweets than Sana. Sana has three times as many sweets as Tom. Tom has 3 sweets. How many sweets does Ravi have?

10. A library's late fee is 15p per day. A book is returned 4 days late. The borrower also owes a flat £2 reservation fee that was already on their account before the book was late. What is the TOTAL amount owed? A) 60p B) £1.60 C) £2.00 D) £2.60 E) £2.75

11. In a relay race, Team X finished 6 seconds faster than Team Y. Team Z finished 4 seconds slower than Team X. Team Y finished in 88 seconds. How long did Team Z take?

12. A clothes shop has a sale: jackets are reduced by £8 from their original price of £32. Trousers are reduced by the same percentage as jackets. If trousers originally cost £24, how much is a pair of trousers in the sale?

13. Four trains depart from Platform 3: the first departs at 09:05. Each following train departs 22 minutes after the one before. What time does the fourth train depart? A) 09:49 B) 10:05 C) 10:11 D) 10:17 E) 10:33

14. A recipe says: the roasting time for a small chicken is 40 minutes. A medium chicken needs 15 minutes longer than a small chicken. A large chicken needs twice as long as a medium chicken. How long does a large chicken need to roast?

15. Five friends' pocket money per week: Faye gets £5. Gus gets £3 more than Faye. Hana gets the same as Gus. Ivan gets £2 less than Hana. Jade gets £5 more than Ivan. Select ALL the friends who get MORE than £7 per week. A) Faye B) Gus C) Hana D) Ivan E) Jade

16. A workshop runs two sessions. Session 1 starts at 10:00am and lasts 50 minutes. Session 2 starts 15 minutes after Session 1 ends and lasts 40 minutes. What time does Session 2 end? A) 11:15am B) 11:30am C) 11:35am D) 11:45am E) 12:00pm

17. In a queue, Owen is 3 places ahead of Priti. Quon is 2 places behind Priti. If Quon is in position 12, what position is Owen in?

18. Three boxes are weighed: Box A weighs 2kg more than Box B. Box C weighs three times as much as Box B. Box B weighs 3kg. What is the combined weight of all three boxes? A) 14kg B) 16kg C) 17kg D) 18kg E) 20kg

19. Four competitors threw a discus: Leo threw 2m further than Mia. Mia threw 3m further than Noah. Noah threw 1m less than Omar. Omar threw 22m. How far did Leo throw?

20. A school trip costs £12 per student. A group of 25 students goes. The school also pays a one-off £40 coach booking fee. What is the TOTAL amount paid? A) £300 B) £328 C) £340 D) £352 E) £360

Hard

5 questions

1. Five friends took part in a quiz: Leo scored higher than Mia. Mia scored higher than Noah. Omar scored higher than Leo. Priya's score was the lowest of all. Noah scored higher than Priya. List all five from highest score to lowest.

2. Four friends arrive at a party: Faye arrives before Gus. Harry arrives after Faye. Ivy arrives before Faye. Who arrives first of the four?

3. A workshop runs two sessions. Session 1 starts at 9:30am and lasts 55 minutes. Session 2 starts 20 minutes after Session 1 ends and lasts 35 minutes. What time does Session 2 end? A) 10:40am B) 11:00am C) 11:15am D) 11:20am E) 11:40am

4. Four buses leave a depot: Bus W leaves before Bus X. Bus Y leaves after Bus X. Bus Z leaves before Bus W. Select ALL statements that MUST be true, based only on this information. A) Bus Z leaves before Bus X B) Bus Y leaves before Bus Z C) Bus W leaves before Bus Y D) Bus X leaves before Bus Z

5. In a queue, Liam is 4 places ahead of Maya. Noah is 2 places behind Maya. If Noah is in position 18, what position is Liam in?
