Crossword Equations & Puzzles

Year 4 · Lesson Worksheet

Worked Examples

Easy: Clue: a two-digit number, found by working out 34 + 28.

Answer: 34 + 28 = 62. The crossword answer is 62 — write one digit in each box of the grid.

Standard: Clue: work out (15 + 9) × 3.

Answer: Brackets first: 15 + 9 = 24. Then 24 × 3 = 72.

Advanced: Clue: square 6, then add 20, then subtract 7. What number do you get?

Answer: $6^2 = 36$. 36 + 20 = 56. 56 − 7 = 49.
