19. Letter Sequences & Alphabet Code (Set B)

Year 4 · Mark Scheme — Supplementary Worksheet

Foundation — Answers

1. H

2. G

3. B — 10

4. N

5. O

6. B — I

7. D

8. B — F

9. K

10. A, C and E (E–G, M–O and V–X are each 2 apart; H–K and P–S are 3 apart)

11. K

12. B — 16

13. K

14. A — I

15. N

Standard — Answers

16. P

17. J

18. B — V

19. L

20. 34 (L=12, O=15, G=7)

21. A — HIR (D→H, E→I, N→R)

22. J

23. B — N (5+9=14)

24. A, B and D (B,F,J,N,R and C,G,K,O,S and E,I,M,Q,U each keep a steady +4 gap; D,H,K,O,S has a +3 gap between H and K, and A,E,H,L,P has a +3 gap between A and E)

25. G

26. A — GOR (K→G, S→O, V→R)

27. M

28. T (the gaps are +3, +4, +5, so N+6=T)

29. A — W (the odd positions spell B, C, D going forward; the even positions spell Y, X, W going backward, so the next even term is W)

30. A, B, C and D (A→G, D→J, H→N and M→S are all correct +6 shifts; Y+6 wraps to E, not D, so E is wrong)

31. E

32. 30 (W=23, E=5, B=2)

33. Z

34. B — Q (the gaps are +2, +3, +4, so L+5=Q)

35. A, B, D and E (the gap is 4 throughout, so the next letter is T+4=X; the gap between L and P is also 4; H is the first letter. The sequence moves forward, not backward, so C is false)

Hard — Answers

36. W

37. B — P (V→A wraps round after Z, then A→F→K→P, all +5)

38. A, B, C and D (J→E, M→H, C→X and D→Y are all correct −5 shifts, with C and D wrapping round the start of the alphabet; B→V is wrong — B−5 wraps to W, not V)

39. +3 (L→O, I→L, O→R, N→Q are all +3), so BEAR becomes EHDU

40. −3 (F→C, R→O, O→L, G→D are all −3), so ZLVK decodes to WISH
